**Do you ever have
Those thoughts,
While browsing
Among the ferns
“If one utahraptor
Eats another
utahraptor, how many
Were there
to begin with?**

And if

**The answer is two,
does this generalize,
to the case in which
a deinonychus
eats another
deinonychus?**

Ever have those thoughts?

I sure do.

It drives me crazy.

Good thing

eating makes sense.
